WORKSHEET NO.3

CLASS 1 ( A TO F)

SUBJECT- ENVIRONMENTAL EDUCATION

LESSON - ANIMALS AROUND US

INSTRUCTIONS : PARENTS TO EXPLAIN THE LESSON TO THE CHILD.

THE CHILD SHOULD READ THE LESSON THOROUGHLY WITH CORRECT PRONUNCIATION.

### SECTION-1

We see different kinds of animals around us. Some animals live on land. Some live in water and some on trees . Animals like elephant, horse, cow, bear and dog live on land. Animals like fish, turtle and octopus live in water. Animals make sounds. These sounds are given special names. We can identify an animal from its sound.

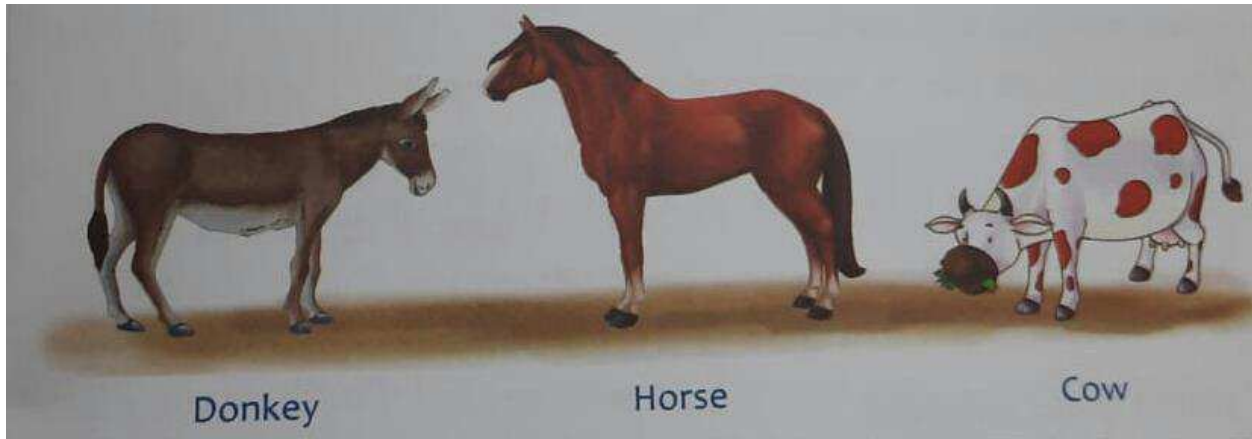

Cat –Mews Snake-Hisses Crow-Caws Dog-Barks Cow-Moos Tiger-Growls

Animals like bat and monkey live in trees. Some animals have feathers and wings. Feathers and wings help them to fly. These animals have two legs. They are called birds. Sparrow, pigeon, crow, eagle and owl are birds.

### Domestic Animals

We keep some animals at home or on a farm. They are called domestic animals.

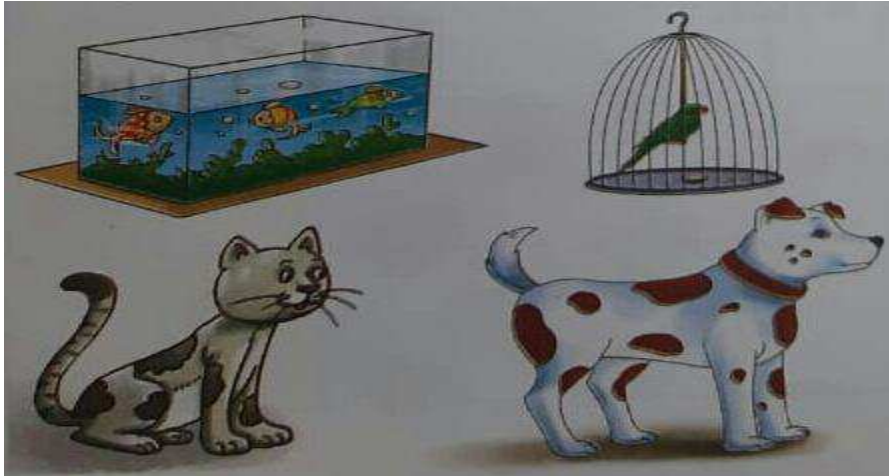

### Wild Animals

Wild animals live in a forest.

### Pet Animals

Sometimes, we keep a dog, cat, fish or bird at home as pets. We should take care of our pets. We should feed them well. We should keep them clean. We should keep them in a clean shelter. If they are sick, we should take them to a vet.
