SUBJECT-COMPUTER

Ch:3- PARTS OF A COMPUTER

Instructions:-Parents are expected to ensure that the child reads, understands, learns and is able to do the given exercises.

TOPIC :- MAIN PARTS OF A COMPUTER

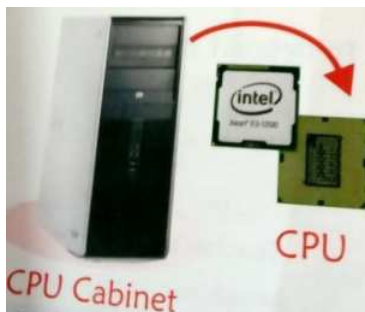

As we have different parts in our body, a computer also has many parts. All these parts work together to do any work on a computer.

MONITOR

- A monitor looks like a television.
- We can see movies and cartoons on it.
- Its shows the work that we do on a computer.

CPU (Central Processing Unit)

- A CPU is the brain of a computer.
- It is present inside the CPU box.
- It helps a computer to think and work according to the given orders.

KEYBOARD

You must have seen a Mobile, a Casio or a Calculator.

Do you find anything common in these pictures? Yes! All of them have a keypad with many keys. Each key has a different function. In the same way, a computer too has a keyboard with many keys.

These keys are used to type letters, words, numbers and special characters.

MOUSE

- A computer mouse looks like a real mouse.
- It has two buttons on it.
- It helps us to draw pictures and play games.
- It is used to point and select things on the monitor.
