ART

LESSON- LINES

INSTRUCTION -Parents please ensure that your ward does the following work in their ART FILE. If a new ART FILE is not available, then the work can be done in the old ART FILE or on a plain sheet of paper.

Line in an artwork can be used in many different ways. It can be used to suggest shape, pattern, form, structure, growth, depth, distance, rhythm, movement and a range of emotions.

We have a psychological response to different types of lines:

- Curved lines suggest comfort and ease
- Horizontal lines suggest distance and calm
- Vertical lines suggest height and strength
- Jagged lines suggest turmoil and anxiety

The way we draw a line can convey different expressive qualities:

- Freehand lines can express the personal energy and mood of the artist
- Mechanical lines can express a rigid control
- Continuous lines can lead the eye in certain directions
- Broken lines can express the ephemeral or the insubstantial
- Thick lines can express strength
- Thin lines can express delicacy

LINE

A path created by a moving point, mark or object.

There are many types of lines: thick, thin, horizontal, vertical, zigzag, diagonal, curly, curved, spiral, etc. and are often very expressive. Lines are basic tools for artists.

A line's width is sometimes called its "thickness". Lines are sometimes called "strokes", especially when referring to lines in digital artwork.
