## LOVE MAKES THE FAMILY STRONG

The Kumar household was facing a difficult time. Their father, Mr. Kumar, was seriously ill and their mother had to take him to Delhi for the medical treatment he needed.

They had three children. Anand was in Class 9, Neel was in Class 7 and Vikki in Class 3. Anand told his parents not to worry. He would take care of his brother and sister while they were away. All three of them promised to be good and study.

Their parents were unhappy and worried about leaving their young children alone, so they asked their kind neighbours to help the children if they had any problem.

The treatment took longer than expected, and Mr. and Mrs. Kumar had to extend their stay in Delhi to over a month. Anand and Neel did not want to celebrate their birthdays that fell during this time. Their Aunt next door brought them birthday cakes, chips and ice cream to comfort them. She told them they were very good, brave children and that God would bless them.

When Mr. Kumar's health improved, their parents returned. The family was happy once again and said special thanksgiving prayers to God for healing their father, for giving strength to their mother and for taking care of the children during those difficult days.

Problems affect people and families. That is a time when every member of the family needs to carry on doing what is expected of him or her, as well as be strong and considerate to the other members of the

family. If they remain peaceful and co-operative, it becomes easier to carry on.
