

GIRLS' HIGH SCHOOL & COLLEGE, PRAYAGRAJ

WORKSHEET No. 3

SESSION 2020 – 2021

CLASS 4 A To F

LESSON- 3D Effect

INSTRUCTION -Parents please ensure that your ward does the following work in their ART FILE. If a new ART FILE is not available, then the work can be done in the old ART FILE or on a plain sheet of paper.

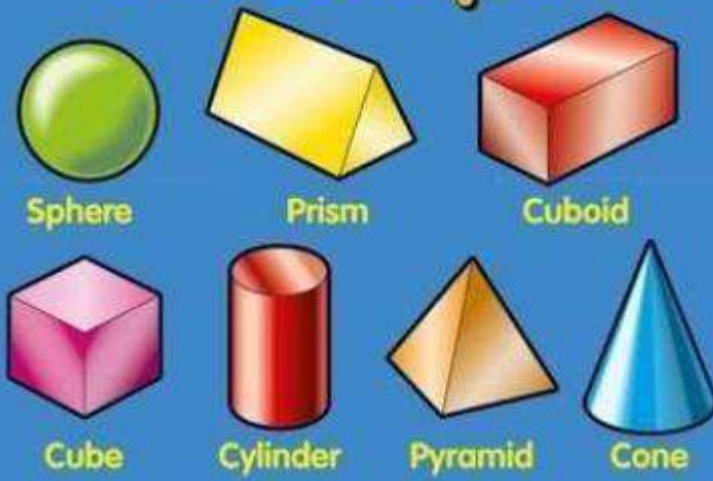

3D-3D (or **3-D**) means three-dimensional, or having three **dimensions**. For example, a box is three-dimensional; it is **solid**, and not **thin** like a piece of **paper**. It has **volume**, a top and bottom, left and right (**sides**), as well as a front and back. You can turn the box around to view it from another side (called a **face**, **surface** or simply **side**). *An example of 3D is a movie in which you are given special glasses to watch.*

The three dimensions are often called **length** (or depth), **width** (or breadth), and **height**. Some purposes use other words.

2D Shapes

3D Shapes

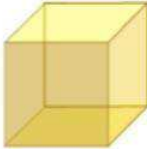

Some examples of 3D shapes in real life

 Sphere	
	
	

 Cone	
	
	

 Cylinder	
	
	

 Cube	
	
	

 Pyramid	
	
	

A.FILL IN THE BLANKS

1. ____ means three- dimensional.
2. Pyramid is a _____ shape whereas, triangle is a ____ _shape.
3. Ball is an example of _____ shape.
4. ____ is an example of cone.

B. Draw three things from cylinder shape and two things from cuboid shape.

Complete the following page numbers from LITTLE ARTIST BOOK – Page number- 9,10,11,21,22 and GO CREATIVE BOOK Page number- 21 (whenever books will be available in the stationary)
