

GIRLS' HIGH SCHOOL AND COLLEGE, PRAYAGRAJ.

SESSION: 2020-2021

ENGLISH LANGUAGE REVISION TEST PAPER (1)

CLASS 9 ABCDEF

MM: 25

TIME: 30 minutes

INSTRUCTIONS:

The test is to be done under the supervision of parents. Parents to ensure that the student takes only 30 minutes to complete this paper. The child with the help of parents will evaluate and assign marks. Parents may use a red pen or any coloured pen for correction. Either the father or the mother should sign at the place of the marks assigned. Evaluated worksheets are to be preserved and submitted when the school reopens.

QUESTION No. 1: Read the passage given below and answer the questions that follow:

You know that modern inventions in science have helped make the great cities of the world. They have done a great deal to make our lives more comfortable, more healthy and also to give us time to do more things for pleasure. But you have also probably heard that modern developments, like industrial areas and crowded highways, have brought smog a major nuisance and hazard into our lives. Smog is a nuisance because it sifts down and settles on everything-people, laundry, streets, parks, buildings, reservoirs, and airports – a gritty, greasy substance. This means more cleaning, sweeping, scouring, washing, vacuuming and repainting for everyone.

Smog is a serious health hazard. It is irritating to the eyes, nose, throat and lungs. It can even be poisonous enough to cause death. Many cities, suffer from periodic attacks of this mixed smoke and fog – smog. It's not the fog that is irritating, of course; it is the smoke. What is in the smoke that makes it such a nuisance? You know that smoke comes from fires. You have seen it swirling up from burning leaves or from barbecues or out of chimneys. The smoke consists of tiny particles of solid material, mostly carbon, carried up into the air by hot gases. Is there a way of cleaning the air of these particles? The best way is not to let them get into the air in the first place. Scientists, especially chemists, have been trying to solve this problem for many years.

- (A) From the passage find the following: (Do not write the same word twice)
- (a) Five prepositions (5 marks)
 - (b) Five conjunctions (5 marks)
 - (c) Give a word from the passage which means: (3 marks)
