Girls' High School & College, Prayagraj.
Worksheet 3
Session: 2020 -21
Class 4 A -F
Subject -Value Education
Topic: Chapter- The Internet

Instruction-Parents please ensure that the child reads and understands the chapter and then attempts the exercises given below.

THE INTERNET

What is the internet? Why do so many people go on it?

The internet is a very big network of computers that connects people all over the world. People

 log on to their computers and 'surf' the internet for many reasons.

For example:

- Curiosity: it is interesting; they want to see what it is about.

- Education: it is very informative and they learn a lot from it.

- Information: it can tell them something they want to know, such as

    Sports schedule, weather forecast; or route to a place

- Problem solving: it helps them to find answers to different problems.

- Entertainment: it can be fun: they can listen to music, meet people,

  read interesting Stories, or watch video clips.

- Communication: it can be used to send and receive messages.

The internet is a tool, such as hammer, a book, or a phone. Sometimes even these tools, which are usually used for good, are misused. A hammer can be used to build a house or hurt someone. Similarly, internet can be used for bad purposes, just as it can be used for good purposes. It is not bad if it is used responsibly. Sadly, some people do use it the bad way.

I will use the internet carefully

Summary - Internet is a very useful tool in modern era. Every thing has its pros and cons and so does the internet. It depends on us how we use it. We should be careful enough while using the internet. In this chapter we will learn about the advantages and disadvantages of internet
